

Documentation on the Extension of Data Fields in the ASN:

The following data points, highlighted in yellow, will be added to the existing notification:

Header:

Field	Type	Mandatory	Default Setting / Comments
ContactName	String	No	Name of the contact person responsible for the ASN
ContactEmail	String	No	Email address of your contact person
DeliveryDate	Date	Yes	Your expected delivery date to DBK's warehouse. Specified in the format: yyyy-mm-dd
CustomerNumber	Int	Yes	Your customer number at DBK. The goods will be registered under this customer number when received at DBK.
Reference	String	Yes	Track & Trace code for the shipment If the individual lines have separate tracking numbers, these must be sent as separate ASN-files. (If the Track & Trace code for the shipment cannot be specified, it is possible to provide an alternative code).

Line:

Field	Type	Mandatory	Default Setting / Comments
BatchNo	Int	Yes	The products batch number
ProductName	String	Yes	Title of the submitted product. Can be used for cross-checking in case of EAN/ISBN errors.
ISBN	Long	Yes	ISBN/EAN of the submitted product.
Quantity	Int	Yes	Quantity of submitted product.
TraceUpdate	String	Yes	Yes/No for the use of the printer's EU Trace number on the item. Y = Yes, transfer the printer's Trace N = No, do not transfer the printer's Trace

EUDRLine:

Field	Type	Mandatory	Default Setting / Comments
ReferenceNumber	String	Yes	Tracking ID for documenting and verifying the item's EU Traces.
VerificationNumber	String	Yes	Verification number confirming validity of tracking ID/reference number
HsHeading	String	No	The products HS code (customs code), used to classify the product for customs processing
EAN_BatchNumber	String	No	Unique reference number containing EAN and batch number
NetWeight	Decimal	No	Refers to the product's net weight, excluding packaging and other materials
Country	String	No	The product's country of origin – ISO 3 (Denmark = DNK)
EUDRInfo1	String	No	Extra field – not in use at present
EUDRInfo2	String	No	Extra field – not in use at present.

Printing companies requiring testing of the new digital notification are referred to Sales- and Development Manager Torben Harder, who can be contacted at tha@dbk.dk.

If you have any questions regarding the above, please feel free to contact us.
